GIRTON HELD APPEAR BEFORE GRAND JURY
HIGHER BODY WILL INVESTIGATE CHARGE ASSAULT INTENT TO DO BODILY HARM
C. M. Girton of Silver Bow, arrested about ten days ago at the instance of W. G. Cook and charged with assault with intent to kill, appeared before Justice of the Peace Harry Dunseath yesterday for examination and at the conclusion of the trial was ordered held to appear before the grand jury. Judge Dunseath reduced the charge against Girton, finding him guilty of assault with intent to do bodily harm, and in blinding him over to the grand jury fixed bonds at \$500, which were furnished.

From the conflicting testimony as given by the two principals, it appeared that an argument started over mining property at Silver Bow. Cook was armed with a gun and during the altercation Girton secured possession of the weapon and administered a severe beating to Cook. Girton denied firing any shots at Cook.

committee or to any depositor of the bank.
3d.—The matter of my salary has been in the hands of the court for a number of months and so far no ruling has been made. I have produced capable witnesses to testify to the salary that should be paid to one filling the duties as I have and this testimony is on hand to be shown to the proper parties. This matter is now under advisement with Judge Langan and was, prior to the introduction of the senate resolution.

4th.—The legislature has seen fit to take up the matter of the State bank affairs and now as one of the parties chiefly concerned therein, I ask that the resolution which the senate has passed be passed by the lower house and that a full and complete investigation of any and all dealings of the State bank be examined into and a full report of the same be given to the public.

5th.—The statements of Senator Heffernan made upon the floor of the senate are at variance with the truth as an investigation would show, as the records of the court will show 18 reports filed, covering in detail the work done by this receivership.

As receiver of the bank, I have nothing to hide and perhaps many things to tell to an investigating committee which will be of interest and which would not properly be a portion of the receiver's report and I reiterate that I welcome and demand a full investigation of the receivership held and executed by me.

While I do not recognize the right of a legislative body to inquire into this matter, I have at all times solicited inquiry and advice from any and all sources and I gladly seize the opportunities afforded me to explain this matter for the benefit of all concerned. Respectfully,
FRANK L. WILDES.

EAGLE, Colo., Feb. 25.—A "fake" holdup, elaborately staged in true "wild west" style, was part of the entertainment which this town provided for a crowd of prospectors and other visitors in a local saloon several nights ago. MINERS' UNION IS VOTING TODAY ON REFERENDUM

QUESTION OF SALE OF UNION HOSPITAL WILL BE SETTLED BY THE BALLOT
Voting on the referendum ballot, submitted to the members of the Tonopah Miners' union with regard to the disposal of the hospital, is under way today. The polls, which are located at the union office, opened at the noon hour and will close at 7:30 o'clock tonight. The result will be tabulated immediately and announced at the regular weekly meeting of the union this evening.

Two proposals have been submitted to the referendum ballot, providing union members vote for a change in the management of the hospital. One proposition calls for the sale of the hospital to Drs. McLeod and Cunningham, who, in addition to paying rental for the institution, will continue to treat all union members at the regular fee of \$1 monthly. The second proposition is for the sale of the hospital outright to John G. Kirchen. Should this sale be consummated the union will appoint a grievance committee who will investigate all complaints of miners who are patients in the institution.

It has been impossible to secure a line as to the outcome of the vote. The hospital question has been discussed time and time again by the union members, but no definite action has ever been taken and the referendum vote was called that the matter might be settled definitely.
